

**SAI KRISHNA MOVVA**

Course : B.E. (Hons.), Computer Science

Email : f2013043@goa.bits-pilani.ac.in

Mobile : 8378988125

CGPA : 6.92

**ACADEMIC DETAILS**

COURSE	SPECIALIZATION	INSTITUTE/COLLEGE	BOARD/UNIVERSITY	% CGPA	YEAR
XII	Science	Sri Chaitanya IIT Academy, Madhapur	State Board	95	2013
X	General	Sri Chaitanya Techno School	S.S.C.	91	2011

ELECTIVES/TECHNICAL PROFICIENCY

Electives	Data Mining, Information Retrieval, Graphs And Networks, Software For Embedded Sys, Internetworking Tech, Network Programming
Technical Proficiency	C, C++, Java, Python, Enterprise Java, R, SQL, HTML, CSS, JavaScript, jQuery, PHP, Node.js, Shell Scripting, Assembly, Software Architecture, Software Modelling, Project Management, Wireshark, NS2, GENi, UNIX, Windows

SUMMER INTERNSHIP/WORK EXPERIENCE

GMR Varalakshmi Foundation, Hyderabad	May 2015 - Jul 2015
Designed and Developed a Content Management System for health-based services offered by GMR Varalakshmi Foundation Health Division.	
SendMyKart Ltd	Jul 2015 - Sep 2015
Designed and Developed front-end User Interface and a partial back-end in PHP Laravel framework. Documented my work throughout the Internship.	
Oracle Financial Services Software Ltd, Bangalore	Jul 2016 - Dec 2016
- Designed, Developed and Integrated Random Forest Algorithms into the current Advanced Analytics Interface enabling customers to predict their future profitability insights based on historic observations. - Refactored and Enhanced existing application for What-If Analysis of Profitability measures. - Developed scripts for a Case Data Generation utility which generates meaningful and relevant data based on the information provided by the user.	

PROJECTS

Effect of Synonymous Codons on the protein structure	Aug 2015 - Apr 2016
- Developed and implemented programs to gather the protein data from various sources, transform the collected data into a structural format and analyze the gathered data using statistical measures. - Mentor: Prof. Ravi Prasad Aduri, Assistant Professor, BITS Pilani K.K.Birla Goa Campus.	
Analysis of Parallel Algorithms	Jan 2016 - May 2016
- Researched and analyzed various parallel implementations of Multiple Sequence Alignment in MPI, CUDA. Prepared a manuscript based on the work we had done. - Mentor: Prof. Bharat Deshpande, Associate Professor, BITS Pilani K.K.Birla Goa Campus.	
Web Application for Activity Management and Scheduling	Oct 2014 - Dec 2014
- Designed and Developed a web-based Activity Manager and Scheduler which can be used to manage and schedule the daily activities of college clubs. - Mentor: T.S.R.K.Prasad, Lecturer, BITS Pilani K.K.Birla Goa Campus	
Native Implementation of UDT: UDP based reliable fast data transfer protocol	Jan 2016 - May 2016
- Implemented UDT which is a UDP-based reliable fast data transfer protocol in Java without using any pre-existing library code ensuring its interoperability with library implementation. - Mentor: T.S.R.K.Prasad, Lecturer, BITS Pilani K.K.Birla Goa Campus.	
Review of Information Centric Networking Architectures	Feb 2016 - Mar 2016
- Researched and reviewed various papers on Information Centric Networking Architectures like NDN, COMET, PURSUIT, SAIL, DONA, MobilityFirst and CONVERGENCE. - Mentor: T.S.R.K.Prasad, Lecturer, BITS Pilani K.K.Birla Goa Campus.	
Cluster Computing with Raspberry Pi	Feb 2016 - Apr 2016
- Setup a Multi-node Raspberry Pi Cluster and Implemented Distributed Sorting Algorithm to analyze the efficiency of algorithm by varying number of worker nodes. - Mentor: Mahadev Gawas, Lecturer, BITS Pilani K.K.Birla Goa Campus.	
Project Samaritan	Jan 2016 - Apr 2016
- Designed and Developed a prototype of a Remote Surveillance system with Motion and Object Tracking and User Alerting abilities ensuring both lesser transmission delay and computational overhead. - Mentor: Prof. Neena Goveas, Assistant Professor, BITS Pilani K.K.Birla Goa Campus.	
Classification of HIGGS Dataset	Sep 2015 - Nov 2015
- Deployed a Spark multi-node cluster and Developed python scripts to classify particle data from HIGGS Dataset using Machine Learning Algorithms like Stochastic Gradient Descent and Neural Networks. - Mentor: Aruna Gowada, Lecturer, BITS Pilani K.K.Birla Goa Campus.	

PUBLICATION DETAILS	
Use of Alternate Learning Models in Financial Analytics Published Journal, Published a White Paper titled, Use of Alternate Learning Models in Financial Analytics while Interning in Oracle Financial Services Software, Bangalore under the guidance of Mr. Arjun Ray Chaudhuri and Mr. Parag Ray of Oracle Corporation, India. Short Description, In this White Paper, we have aimed to focus on the alternate mechanisms that can be used to perform Predictive Analysis on various Business Profitability Aspects and Financial Instruments. As a result of this paper, we have established that Random Forests are a viable alternate mechanism to predict Profitability Insights.	Aug 2016
POSITION OF RESPONSIBILITY	
Chief Coordinator, Department of Reception, Accommodation and Hospitality, BITS Pilani Goa Campus Mentored and managed a team of around 60 members in working towards the success of the fest.	Apr 2015 - Apr 2016
Core Member, Electronics & Robotics Club, BITS Pilani Goa Campus Mentored and Guided other club members in achieving knowledge in electronic and programming aspects of Robotics. Participated in various projects running in the club.	Aug 2013 - Mar 2015
Teaching Assistant, BITS Pilani K.K.Birla Goa Campus Assisted Instructor In-charge of Object Oriented Programming and Design, Data Structures and Algorithms courses in Programming Lab Sessions.	Aug 2015 - May 2016
